SUMMARY

Game Developer with 2+ years of professional Unity and C# experience, contributing to mobile titles shipped with publishers including Voodoo, Rollic and Brew Games. Experienced across both core gameplay development and marketing game development, building mechanics and ad creatives for high-download titles. Built part-time and through internships alongside an Electrical and Electronics Engineering degree; working full-time in games since mid-2025.

EXPERIENCE

- Brew Games · Partnered with Voodoo Publishing** Jul 2024 – Present
Game Developer **FULL-TIME** Jul 2025 – Present
 - Building game prototypes from scratch and iterating on titles with strong metrics
 - Implementing core game mechanics, UI systems, and performance optimizations for mobile
 - Shipped Boat Defense: Bag Blast; joined the Fall of the Ages team as a game developer
- Marketing Game Developer** **PART-TIME** Sep 2024 – Jul 2025
 - Built watch-only ad mechanics and juicy, eye-catching creatives driving UA campaigns
 - Delivered creatives for high-download titles: Drop Away (Rollic), Battle Bag (Voodoo), Shopping Mall 3D and Miner Tycoon
- Game Developer Intern** Jul 2024 – Sep 2024
 - Shipped Softy Drop end-to-end as the final internship project, released for live metric testing; also prototyped a We Are Warriors-style title and an Urban vs. Rural Life concept
- Unity Tutor** Oct 2023 – Jun 2024
Kodland
 - Taught game development fundamentals with Unity and C# to young students
- Game Developer Intern** Sep 2023 – Nov 2023
Masomo (Remote)
 - Contributed to game development projects in a remote collaborative environment
- Game Developer Intern** Jun 2022 – Aug 2022
Moralabs
 - Developed @ufobeam as part of a team-based game project
- Game Developer Intern** May 2022 – Jun 2022
Dumbbell Games
 - First industry internship, learning professional game development practices with Unity

SHIPPED GAMES

CORE DEVELOPMENT

- Boat Defense: Bag Blast** **Brew Games** Core Developer · Weapon merge & upgrade systems
