SUMMARY

Dedicated Game Developer with 2+ years of professional experience specializing in Unity and C#. Shipped multiple mobile titles to the App Store in partnership with the top publisher Voodoo — including Boat Defense: Bag Blast, taken from prototype to a live title and built for player retention. Skilled in polished game mechanics, UI systems, and performance optimization, with a focus on gameplay "feel" and keeping players coming back.

EXPERIENCE

- Game Developer** Jul 2025 – Present
Brew Games · Partnered with Voodoo Publishing
 - Building game prototypes from scratch, iterating on titles with strong metrics
 - Implementing core game mechanics, UI systems, and performance optimizations for mobile titles
